Transmission of safety data sheets pursuant to Article 31 REACH Ordinance.

Dear UNILUX partner,

As a UNILUX retail partner, you can purchase products from us such as cleaners, glues, paint, etc. that are regulated under the REACH Ordinance (European chemical regulations). These products are **only** provided for commercial use.

When delivering these products, under Article 31 of the REACH Ordinance we are obligated to transmit a safety data sheet to you pursuant to Regulation (EC) No. 1907/2006.

To allow you to avoid unnecessary amounts of paper, we would like to provide this information transmission in the form of safety data sheets on **our corporate website** at <http://www.unilux.de/de/service/zertifikate.html>.

Before the first delivery of the products in question, we will notify you in the order confirmation that a safety data sheet exists and that it is available to you on the **UNILUX website**. You can view the safety data sheets there at any time. We will also inform you by email of any changes to the safety data sheets.

If you consent to this form of information transmission, then please send us short written letter of consent to the fax number below.
